

# ACORDES BÁSICOS GUITARRA I

The diagram shows 15 basic guitar chords arranged in a 3x5 grid. The chords are: E (Mi), Em, E7, Em7, EMaj7, A (La), Am, A7, Am7, AMaj7, D (Re), Dm, D7, Dm7, and DMaj7. Each chord diagram includes a 6-string fretboard with strings numbered 1 to 6 (1 being the lowest string) and frets numbered 1 to 3. Fingerings are indicated by circled numbers 1, 2, and 3. Symbols 'O' and 'X' are used to indicate string status: 'O' means the string is played but not sounded (e.g., open strings in E and A chords), and 'X' means the string should not be played (e.g., the 6th string in A and D chords). A legend at the bottom explains these symbols.

O → La cuerda no se pulsa pero suena (al aire)  
 X → Esta cuerda no debe sonar.

① → Simboliza que se pulsa traste con dedo 1

Todos con dedo 1= Media cejilla
